

# Nettleham Parish Council

## ENVIRONMENTAL POLICY

As a Parish Council responsible for service delivery in the built and natural environments, we can, through the advice given to parishioners and those working with us, make a contribution towards the protection of our local environment.

Nettleham Parish Council aims to achieve the following:-

- Comply with all relevant local, national and international environmental legislation that impinges upon our activities
- When no legislation exists, aspire to positively influence parishioners to incorporate environmental considerations in all aspects of parish life
- Endeavour to positively influence suppliers, service providers and the public towards environmental excellence
- Adopt environmental principles for purchasing consumables, minimising waste, efficient use of energy and water and ensuring that wastes are recycled whenever practicable and disposed of appropriately
- Encourage adherence by all to guidance for the protection of conservation areas that is documented at a national and local level and in the Nettleham Village Design Statement and in the Parish Plan
- To work with West Lindsey District Council's Environmental Enforcement Team for the environmental improvement of the parish.

**Approved and Adopted at the Annual Parish Council Meeting held on 22 May 2018**

**Review Date:** This Policy will be reviewed annually or sooner if legislation or events dictates
