Thomas (RFO)** Candidate for co-option* 2 members of the public

Councillors not present: Cllr K. Swain, Cllr C. Payne & Cllr D. Newsam

The public session commenced at 7.15pm

Councillor J. Brockway offered apologies to Councillor Simpson for non-attendance at a recent meeting of Nettsafe (Highways working group) and asked to be included in invitations to future meetings. Members noted an update from Councillor Brockway relating to the administration of Lincolnshire County Council (LCC) and West Lindsey District Council (WLDC). Councillor Brockway informed members that she would be serving on the LCC Community Safety Committee.

Councillor Brockway thanked the Clerk for her assistance during her time in the role.

Following questions, members noted that Councillor Brockway would investigate the reason for the delayed work on the new dropped kerb in the vicinity of the Green and the possibility of extending the new A46 speed reduction to include Nettleham Heath.

A member of the public raised various concerns relating to traffic/ highways matters including:

- Reiteration of the need to extend the A46 speed limit
- The need for visual speed calming measures such as gateway treatments or chicane style traffic calming at the entrances of the village.

It was highlighted that highways matters were within the remit of Lincolnshire County Council rather than the Parish Council, but that the Nettsafe working group were lobbying LCC regarding traffic calming measures.

The meeting commenced at 7.30 pm

NETTLEHAM PARISH COUNCIL

CONSERVATION WORKING GROUP

MEETING NOTES HELD ON MONDAY 30TH JUNE 2025

- 1. Subject to no objection from the Conservation Officer at WL it is proposed the new oak notice boards are installed on suitable freestanding posts to be purchased and erected on the unregistered land to the side of the Coop in a position reasonably close to the originally planned location. This will result in the job being done once with no need to find a temporary location or messing about with the old NB's which are in a poor state of repair. See thread below.
- 2. We wish to propose to Full Council again they consider starting the long process of taking ownership of the land above. It is v important to the Conservation Area not only directly in visual terms but also strategically.
- 3. We are concerned about what is seemingly more anti social behaviour on The Green including ball games carrying on to well after 10 pm which is unreasonably disrupting residents and we feel is 'an accident waiting to happen'.
- 4. We wish to propose erecting one or two signs, in suitable materials to deter this activity.
- 5. We propose a review of the Management Plan for The Green to allow more scope or control/deterrence of what we consider to be anti social behaviour such as tethering horses for long periods without food or water and parking vehicles on it.
- 6. The handrails and supports of the footbridges and vehicular bridge on Church St all look very shabby and we wish to propose that we seek permission from LCC to allow the Parish Council to restore them and/or continue to lobby LCC to do this.

Proposal for Facilities Manager training

After assessing the information in several of the more recent contracts put out to tender by NPC, it is apparent that requirements for tree removals and use of a chain saw to remove dead timber is quite extensive. Identified work for future projects, such as the Bill Bailey remedial fire work, Beck clearance where fallen trees need to be removed and several dying trees within our playground areas will mean that the requirement for further chainsaw/felling services will be needed.

I propose that the council provide funding for the Facilities manager to undertake Chainsaw Maintenance & Cross Cutting and Felling & Processing of trees up to 380mm training. This would remove the need to engage specialist services and speed the council's response to managing certain issues related to tree management. The plan to take remedial action in Bill Baileys Field alone indicated an approximate price of £1800 for tree removal. Whilst this work is quite urgent and needs to be completed quickly it is indicative of the expense when engaging in specialist services.

The training for both courses over 5 days would cost £800 + VAT with training available in October and November.

This would mean future projects would require funding for tool hire only and work to remove trees and logs could be undertaken without waiting for quotes to be returned. It would also speed up some of the work engaged in regularly, such as brush clearance at Mulsanne, after the initial tree work is carried out in October.

This would not be a replacement for contractors working at height which remains a specialist task.

1 Introduction

This report was produced to provide possible options for a response to the acts of fire setting that have taken place in the same area of Bill Bailey's memorial field during May this year. The second of these incidents resulted in a line of Leylandii trees on a neighbouring property catching alight and threatening to spread to other adjacent properties. It is understood from local knowledge and contact with the fire service and police that the area in question is used regularly by young people and would be considered attractive to anyone engaging in illegal behaviour, as it is easily accessible and has an extensive brush cover which obscures anyone within the area from other patrons using the field and the main road. The owners of the property have not been contactable and recent enquiries revealed that they are a much older couple (possibly over 90), both house bound and under regular care provision. There is concern from the immediate neighbour that they are not aware of the extent of damage to the leylandii.

2 Area report

Bill Bailey's field is set out on 2 stepped levels, the upper level consisting of 2 fenced play areas and a grass maze. The green outlined area to the north east of the field has several mature trees, however, the majority of the area is a mix of overgrown brush, seedling trees and flat well walked ground with little growth due to the canopy cover. The green line shows the old fence line, and the previous chain-link fence can still be seen flattened into the ground in several places. (Photo 5)

There are several well-trodden, unofficial paths crisscrossing this area including large areas of clear ground and two paths that run immediately along the fence lines of adjacent properties and are well hidden by cover. (Photos 6 &7) This area seems to be well used, and we would need to inform residents of any plans for the area.

There is also some graffiti to an adjacent property's fence within this covered area. (photo 10)

All the areas pictured are completely obscured from the grass maze, this is due to bushes and immature trees which have formed a barrier approx. 2 m deep. (photo 11,12 &13)

3 Proposed work

All brush lines, and smaller immature and dead tress to be cut back and removed. This would include some arboreal work as several dead trees have previously been well established.

Larger areas in photos 3,4,7 & 8 to be landscaped and planted with grasses and wildflowers in line with local rewilding policy and some paths to be established and adopted as walkways through the remodeled area. All planting will use shrubs and flowers that reduce the height of any cover so the boundary line can be seen from the grass maze area.

Rebuild 30m section of chain link and concrete post fence to east boundary to prevent access to gardens that have low wall boundaries including the area previously subject to fire setting.

With landscaping and planned planting there would be future options to have memorial bench sites.

Removal and disposal of brush and immature trees, and general landscaping could be carried out by NPC staff with the only extra cost being tool hire for wood chipping, stump grinding and log cutting (approx. £600) Expected work would take 3-4 weeks due to part time hours. However, this would remove NPC staff from their regular planned work. The planting and seeding of landscaped areas could be completed by a working group in conjunction with NPC staff.

Should the work be carried out by NPC staff, the removal of larger trees would need to be carried out by a specialist contractor, and this work is estimated to be £1800. (based on previous quotes)

An estimate was sought to carry out all tree and bush removal, including stump grinding and chipping, to be carried out by a contractor. £2500 - £3000 with the work taking 1 week

Fencing would need to be carried out by a contractor due to the nature of the landscape and slope. General costs are based on returning the fence to the standard that was in place.

30m galvanized 1.8 m chain link fence

6-8 Concrete posts

Installation

£2500-£3000 (quotes have not been sought for this work until the decision to replace the fence is agreed).

4 Summary

The council has a number of options available to it.

- 1. Do nothing. There has been no repeat of the fire setting since the incident in May. This would incur no further cost to the NPC.
- 2. Carry out remedial work in the area to remove brush and smaller trees. Work to be completed by NPC staff, with an approx. time frame of 3 4 weeks. However, larger trees would need removing by a specialist contractor. (estimated costs £600 for tool hire and £1800 for tree removal.)
- 3. Engage a contractor to carry out all brush and tree removal including stump grinding and chipping (estimate £2500 £3000). NPC staff to landscape, plant and reseed areas.

None of the options above include returning the fence to good order. Whilst attempts have been made to contact the house owners to see what action they are considering for their damaged trees and garden. It does appear that there are overriding factors that are preventing their engagement. In which case, it seems beneficial to both parties for NPC to rebuild the fence. An estimate has been provided for chain link fencing. The council may wish to consider a more robust shiplap and concrete post fence to make the field border more secure in that area.

5 Recommendation

Due to the nature of the landscape and the time frames involved with summer holidays quickly approaching, I would recommend seeking formal quotes and engaging a contractor to carry out the tree removal and brush cutting as soon as is practicable. I would also recommend returning the fence to good order but to a more robust level than chain link and post. (shiplap panel and post). NPC staff would then continue to landscape the area and put in place a planting schedule to grow the area correctly for next summer, ensuring that the present cover is prevented from returning.
